Performance Task; Hardest Enabled Skill

Trials 1-X

Hardest Enabled Skill Evaluation and Lesson Evaluation

- If $\geq 75\%$ of the trials were Successful at the Pivot or Target AVLs, THEN Skill and Lesson are both Successful.
- If 50%-74% of the trials were Successful at the Pivot or Target AVLs, THEN Skill is Passed and Lesson is Neutral.
- If $\leq 49\%$ of the trials were Successful at the Pivot or Target AVLs, THEN Skill is Failed and Lesson is Neutral. The child will Redo the just completed hardest enabled Skill, after which the Lesson is complete.

Changes to Number of Responses based on Lesson Evaluation

Once either of the following conditions have been invoked, no further changes will be made to the Number of Responses until at least two more consecutive Lessons have been Successful or Failed. If 2 out of 2 or 2 out of 3 consecutive Lessons have been:

- Successful AND the Number of Responses < 4 , THEN increase Number of Responses by 1.
- Failed AND the Number of Responses > 2 , THEN reduce Number of Responses by 1.

Otherwise, no the Number of Responses will not change.

Changes to Skills and Placement based on Lesson Evaluation

Once any of the following rules are applied, clear the Consecutive Lesson History.

If 3 of 3 or 3 of 4 Consecutive Lessons within the same LU = Successful, apply the following rules in order:

- If the enabled Skills for the current LU are not the hardest available Skills, THEN
 - Easiest Enabled Skill is disabled
 - Hardest Enabled Skill becomes the Easiest Enabled Skill
 - Next most difficult available skill becomes the new Hardest Enabled skill
 - Child goes through new Hardest Enabled skill with current wordlist, after which Lesson is complete (but not re-evaluated).
- If the Enabled Skills = the Hardest Available Skills, THEN the child will go to the first Lesson in the next sequential Objective. If the child has triggered an objective change three times out of the last 9-12 consecutive lessons, AND the child has not had a progression prompted assessment within the last week, AND the child's current curriculum placement is before the X part of the curriculum, schedule an Assessment for next session. An update will be sent to the teacher informing her of the Assessment.

If 2 of 2 or 2 of 3 Consecutive Lessons = Failed, apply the following rules in order:

- If the Enabled Skills for the current LU are not the Easiest Available Skills THEN
 - Hardest Enabled Skill is disabled
 - Easiest Enabled Skill becomes the Hardest Enabled Skill
 - Next least difficult available skill becomes the new Easiest Enabled skill.
- If the Enabled Skills = the Easiest Available Skills, THEN schedule an assessment for next session. An update will be sent to
